ADMINISTRATION REPORT - Inclusion of programme of work to be done in the year following that to which the report relates - Instructions.

***

The Administration Report of the Labour Department "on the work done for the amelioration of the eligible communities" published, contains details of the work done in the preceding year only. The Government consider that it will be better if the programme of work to be done in the following year is also included in it, so as to facilitate a comparison of the work done in the year to which the work relates with the programme contemplated in the next year. The Commissioner of Labour is requested to prepare the Administration Report in future accordingly
